

WISYCOM S.r.l.

Via Spin, 156
I-36060 Romano d'Ezzelino (Italy)
tel. +39.0424 382605
fax +39.0424 382733
web: www.wisycom.com

Models: MTK952N-2W0-US

FCC-ID: POUMTK952N-2W0

IC: 11967A-MTK952N-2W0

Variants:

MTK952N-2W0-US, MTK952N-2W0-US_DC, MTK952N-2W0-US_MS, MTK952N-2W0-US_MS-DC

WISYCOM srl declares that the product "**CSI8T-combiner**" is in all relevant radio parameters identical to the product "**CSI16T-combiner**".

The "CSI8T-combiner" model is half of the CSI16T-combiner model (8/1 instead of 16/1) with the same combiner functionalities.

The maximum power of MTK952N-2W0 version is limited by software for US products at 250mW.

When the transmitter works with the CSA121T, CSI8T or CSI16T the transmitter adjust the power in order to be compliant with USA/Canada regulation and have maximum 250 mW at the end of the combiner side.

Date: 16 June 2016

Managing Director: Franco Maestrelli
