PCII Request / Re-assessment

MTK952N-2W0-US, FCC ID: POUMTK952N-2W0 granted on 04/11/2015
and IC: 11967A-MTK952N2W0 granted on 06/05/2015

TO WHOM IT MAY CONCERN

Pursuant to CFR § 2.1043 and RSP-100, Wisycom srl hereby requests a Permissive Change Class II / Re-assessment.

Reason:

- no hardware changes on the transmitter MTK952N-2W0
- new combiners CSI16T and CSI8T:
The new combiners work in the same way of the previous combiner CSA121T already homologated with MTK952N-2W0-US (ref. FCC ID: POUMTK952N-2W0 and IC: 11967A-MTK952N2W0): when the transmitter MTK952N is connected to the combiner CSI16T or CSI8T or CSA121T, the transmitter increases the power in order to not overcome the allowed maximum power of 250mW at the end of the combiner side.

Sincerely,

 **WISYCOM s.r.l.**
