RE: Tune-up Procedure for SOMAport3, Model # NPM-100-7110, FCC ID:  
POZNPMWCS005777A

To Whom It May Concern:

The EUT with SOMA Model number NPM-1000-7110 is tuned and calibrated solely during the manufacturing process at the factory. It is neither necessary nor possible for a user to perform such a tune-up procedure.

Sincerely,

A handwritten signature in black ink, appearing to read 'Robin Grindley'.
