Federal Communications Commission(FCC) Notice

This device complies with Part 15 of FCC Rules, operation is subject to the following two conditions: (1)This device may not cause harmful interference, and (2)This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installations. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient/Relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

CAUTION: Change or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

⚠ SAFETY AND COMFORT GUIDE
IMPORTANT NOTICE

Whenther you spend one hour or more using your keyboard and mouse, the following suggestions will help you to reduce discomfort.

Long hours of usage, incorrect body / setting positions or poor working habits and working conditions, may cause you physical discomfort, nerves injury and muscle pain. If you feel discomfort, pain/weakness, or cramps, you should take a rest or see your panel doctor.

MAKE SURE YOU SET UP AN APPROPRIATE WORKPLACE

You should place the multimedia Keyboard directly in front of you with the hamster Mouse next to it. Place the Hamster Mouse within the operation range to maximize the function.

DO

Adjust the height of your chair and table for the keyboard and mouse either at or below the elbow height.

Use the adjustment mechanism of the keyboard if necessary

Put the materials that you might use frequently close to you

Put the materials that you use infrequently further away, but consider convenience

Place documents that you need while typing close to the monitor, to reduce your head turning and change of eye focus

DON'T

Rest your wrist on sharp edges

Bend your wrist

BE ALERT TO BODY DISCOMFORT

If at any time you feel discomfort while typing or numbness of your hands, wrist, or shoulders / neck or even back pain, you should consult your doctor.
Thanks for choose our product

Your Cordless COMBO use digital radio technology to communicate between keyboard、mouse and your computer. Which do not require "line of sight", you can put the receiver anywhere you want and use the keyboard and the mouse up to 6 feet away from the Receiver.
