

Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046

5/19/03

Dear Examiner:

I am writing to avoid the possibility of an inadvertent disclosure of proprietary information.

The accompanying Form 731 is being filed with the commission on our behalf by Compliance Engineering Services, Inc., a consulting and testing laboratory. Included as exhibits with the enclosed application are block diagrams, schematics, and a detailed description of the theory of operation of the device.

We ask that these portions (block diagrams, schematics, and theory of operation) of our application be withheld from public inspection as provided under FCC section 0.459. These documents contain details of the proprietary operation of the product. These details are not readily discernible - even to technically sophisticated individuals - from our hardware and constitute trade secrets.

We request that these documents and this letter be segregated from the body of our evaluation report and withheld from public inspection.

Sincerely,

Michael Green  
Manager of Global Product Compliance
