To Whom It May Concern:

Ref: MPE Report for the Dell Systems PP35L, PP33L, PP31L, PP17S and PP24L

With this letter, we clarify that the following Dell laptop computer platforms are planned to be implemented with the following radio modules as listed in the table below together with the Atheros wireless LAN module (AR5BHB92) PPD-AR5BHB92-D as one of the optional WLAN cards. In support to Atheros's class II permissive change filing to remove radio co-location restriction, we agree to let Atheros use the MPE assessment report produced by AT4 (Report number: 27470IDT.005) in their FCC filing.

System name to be shown on grant	RF Device	FCCID
PP17S(Studio XPS 1340)	WLAN	no
	WWAN 5720	PKRNVWE725
	WWAN 5530	VV7-MBMF3507G-D
	BT 370	QDS-BRCM1034
	UWB 410	QDS-BRCM1035
PP35L	WLAN	no
	WWAN 5720	PKRNVWE725
	WWAN 5530	VV7-MBMF3507G-D
	BT 370	QDS-BRCM1034
	UWB 410	QDS-BRCM1035
PP33L	WLAN	no
	WWAN 5720	PKRNVWE725
	WWAN 5530	VV7-MBMF3507G-D
	BT 370	QDS-BRCM1034
	UWB 410	QDS-BRCM1035
PP31L	WLAN	no

	WWAN 5720	PKRNVWE725
	WWAN 5530	VV7-MBMF3507G-D
	BT 370	QDS-BRCM1034
	UWB 410	QDS-BRCM1035
PP24L	WLAN	no
	WWAN 5720	PKRNVWE725
	WWAN 5530	VV7-MBMF3507G-D
	BT 370	QDS-BRCM1034
	UWB 410	QDS-BRCM1035

Note: only one of each WWAN or BT/UWB radio will be used in a platform

Sincerely,
