Re: Original Certification FCCID: PPD-AR5BMB82

March 10, 2008

Dear Examiner,

Atheros Communications, Inc. request the FCC to perform pre-grant testing using the latest version test sample recently provided to FCC. This version, described in the most recently uploaded test reports, contains current software, MAC/BB chip and PCB revision.

There is no need to perform pre-grant testing of the previous version (pre-grant sample sent to FCC in Dec 2007. That previous version software/hardware will not be productized and sold under this FCCID.

Sincerely,

Michael Green / Manager, Global Product Compliance
Atheros Communications Inc.
