Re: Technical Justification Letter Pertaining to FCC ID : PPD-AR5BXB63

Gentlemen:

This is to justify that we, Samsung Electronics Co., Ltd. will be installing the identical approved 802.11b/g PCIExpress Minicard, Model Name: AR5BXB63 in a different portable host. We have done a SAR evaluation for this new portable host and are submitting for a Class II Permissive Change filing. There is no change on the module hardware and the antennas used in this portable host is the same antenna type as the previous with less gain by comparing to the certified antennas included in the original modular approval, and output power remains unchanged. Therefore EMC tests are not performed.

Sincerely,

A handwritten signature in black ink, appearing to read "John SC Lee".

John SC Lee
Manager and Chief Engineer
Samsung Electronics Co., Ltd.
