

Dell Inc. Product Group Taipei Global Product Compliance and Environmental Affairs, 19F, No. 218, Sec. 2, Tung Hwa S. Road, Taipei, Taiwan

Justification of Labeling

Module FCC ID: PPD-QCNFA435

Host model name: P102F

The label exhibit of this FCC filing showed the location of the label on the inside of the D cover. According to section 4 in KDB 784748 D01, as an option to placing the FCC label on the exterior of the device, the FCC label may be placed in a user accessible area if the following conditions are met:

Requirement	Justification
The device is handheld (notebook computers	It's for Dell's notebook
are considered as handheld);	
The FCC identifier is visible at the time of	We provide additional documentation
purchase. Marketing the device without the	(Warranty, Safety, and Regulatory Information)
battery installed when the label is in the	directing the user where to find the FCC label
battery compartment is acceptable. The FCC	and meet the requirement. Please refer to
ID on the box, or additional documentation	Warranty, Safety, and Regulatory Information,
directing the user where to find the FCC label,	and you will find following description.
also satisfies this requirement;	Location of Radio Regulatory Labels for some
	portable computers, the radio regulatory
	labels may be found either in the battery
	compartment, or under the bottom access
	panel.
The user accessible area must not require any	panel. The access panel where the labels are affixed
The user accessible area must not require any special tools for access, and the FCC label
