RE: FCC ID: PPIRM-167_ATCB003964
Attention: Jussi Visuri

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the original power level shown on the grant for the PCS band is 1.862W (32.7dBm). Please note that the highest power measured for this device in the PC2 test reports is 1.178W (30.7dBm). Please note that while this is within the 3dB allowed for ERP/EIRP measurements, it is rather extreme. Please verify these power levels for the PC2.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
