Federal Communications Commission
Authorization and Evaluation Division

To Whom It May Concern,

We, LITE-ON TECHNOLOGY CORP., now declare that our product GPS Navigation, FCC ID: PPQ-VN910F, can only perform normal data up/download mode through USB cable when it is connected to a PC, and at the meantime if we are performing the continue transmit function under FCC Part 15 Subpart C, and then the continue transmit function will automatically be ceased.

Therefore,

In order to perform the wireless test for FCC Part 15 Subpart C,

We cannot connect the USB cable between the EUT to a PC

Due to this reason,

The PC connection photo for the test will not be included under the FCC Part 15 Subpart C.

Sincerely,

Peter SH Wang / EMC Senior Engineer
