

1.2. Operation Description

The EUT is an Advanced iPod Controller with built-in FM transmitter. The operation frequency is from 88.1 to 107.9MHz with FM modulation. 199 manually selectable channels were built in the EUT. The channels are separated by 100kHz. The signals are modulated by FM. RF signals are transmitted from the Planar monopole antenna. DC 12V shall be provided for EUT operation.
