Hi Mike,

Question #4: Page 41 of user manual still show SAR compliance which is not applicable to this device. Please remove it.

Ans #4: Removal is done. Please refer to the revised user manual.

Question #5: Page 38 of user manual under " FCC RF exposure statement ", please include 20 cm separation distance requirement.

Ans #5: The requirement of 20 cm separation is included. Please refer to the revised user manual.

Best regards,
Ting

Dear Mike,

Since this is also an urgent project and Ting, WK came home already. Please
4/23/2004

allow me to rely review questions of this submission.

Attached please find the revised user manual.

(See attached file: Liteon revised manual R192174000_1.pdf)(See attached file: Liteon revised manual R192173000_1.pdf)

Response for Question#1, LITE-ON have delete such information that this device has been tested for SAR compliance and require the user to maintain 1.5 cm separation distance from the user manual, the EUT is an mobile device. Please refer to the revised user manual.

Response for Question#2, Confirmed that the user have 11 channel operation only in the U.S., please refer to the revised user manual.

Response for Question#3, Delete all related information about 5GHz from user manual, please refer to the revised user manual.

Please be noted that we also submit to FCB for this project.

Best regards,

Shirley Kang /康翎齊

Notice_content

Question #1: Page 37 of user manual indicates this device has been tested for SAR compliance and require the user to maintain 1.5 cm separation

4/23/2004

distance. Since this device is going to be used as mobile device per section 2.1091 of FCC rules. Please explain the reason to include statement in page 37.

Question #2: Page 12 of user manual to allow the user to select the channel up to 14. This device is reviewed from channel 1 to channel 11 based upon IEEE 802.11 g standards. Channel 12, 13 are not included in the filing and Channel 14 is not allowed in the U.S. Please provide the way to limit the user to have 11 channel operation only in the U.S.

Question #3: The user manual is written for 802.11g AP only. However, there are many places in the user manual mentioned 802.11a with 5GHz operation. Please remove such reference in the user manual.

Best Regards

Mike Kuo

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
