**Subject : The contents of modification to meet the FCC Requirement.**

We, DXO Telecom, confirm following modification from current test sample to meet FCC requirement.

Product : ADSL Modem

Model : XV1000

FCC ID : PPYXV1000

**[Modification Details]**

**1. Copper tape (6 points)**

Please refer to the photo of XV1000 to check the points. 4 copper tapes are applied on component side and 2 copper tapes are applied on solder side

**2. By-pass capacitors (10 points)**

Please refer to the photo of XV1000 to check the points. By-pass capacitors are applied near L12, OSC1, J4, L1, L2 and L4 on component side. The other By-pass capacitors are located on the solder side.

This modification will be applied in production.

Please check EMI test report to find the point of modification.
