# Preface

## **Welcome!**

PLEASE READ THIS INFORMATION BEFORE USING THE TABLET TO MAKE A BETTER USE OF YOUR TABLET. WE ARE NOT RESPONSIBLE FOR ANY DAMAGE DUE TO YOUR MISUNDERSTANDING OF THIS INFORMATION AND MISACTING.

We are endeavoring to improve our products and services and we reserve all the rights to revise and change the description of this product and its software as well as this user's manual without obligation to notify any person of such revisions and changes.

This user's manual is for your better use of this tablet but not an approval of any accessories. All the pictures in this manual are for reference only. There may be slight difference between the appearance of tablet and keys and contents of display used in this manual and those of your tablet. Please refer to your tablet for actuality. Some features introduced in this manual are network or subscription-dependent features. Please contact your service provider

## **Safety Information**

Read this information before using your mobile device otherwise may result in personal injury or your device not complying with local laws.

### **Battery:**

If a conductive material such touches the exposed terminal, short circuit may occur resulting in property damage, bodily injury or burn. To avoid risk of leaking electricity, take care when handling a charged battery particularly when placing it inside your pocket, purse or other container with metal objects.

### **Keep your mobile device from water:**

Keep your mobile device dry.

### **Use while driving**

Always obey the laws and regulations on the use of mobile devices in the area where you drive. Give full attention to driving and the road; use hand-free operation or earpiece if a call is needed.

### **Aircraft**

Mobile device may cause harmful interference so turn off your mobile device before boarding an airplane.

### **Blasting areas**

Always obey the related limits and regulations and do not use your mobile device in blasting areas. Turn off your mobile device in areas posted "turn off electronic devices".

### **Potentially explosive atmospheres**

Turn off your mobile device in the gas station and areas near fuel and chemical containers. Turn off your mobile device in areas posted "turn off electronic devices".

### **Medical devices**

Turn off your mobile device whenever instructed to do so by posted signs near some medical equipment. Mobile device may interfere with pacemakers, hearing aids and some other medical transplanting equipment. Do not put your mobile device near pacemakers nor carry in the breast pocket.

### **Accessories and battery**

Use the accessories, batteries and chargers approved by manufacturer. Use of batteries not approved by manufacturer may cause injury.

### **Emergency calls**

Turn on your tablet and keep it in service areas, dial emergency tablet numbers and then press send key to make a call.

### **When losing your tablet**

To avoid any economy damage, please inform the Tele-communication Company or agencies to lock your SIM card when you lost your tablet.

When you inform the telecom company or agencies to lock your SIM card they need to know the IMEI No. of your tablet, which you can find printed on the label on the back of your tablet when taking off the battery. Please backup this number for future need

For safety consideration, you can make preventative measures such as set PIN Code for your SIM card to prevent other persons using your SIM card without your permission.

### **Keep away from children**

Keep the tablet, battery and charger away from children to avoid any personal injury.

### **Use and Care**

To care for this mobile device, keep it away from:

Any kind of fluid

Keep the device away from water, rain, humidity, sweat or other moisture.

Extreme heat or cold

Avoid the temperature below -30°C or above 50°C.

Microwave

Don't try to dry your tablet in a microwave oven.

Dust and dirt

Don't expose your tablet to dust, dirt, sand, food or other inappropriate materials.

Cleaning solutions

Use only a dry soft cloth to clean your tablet. Don't use alcohol or other cleaning solutions.

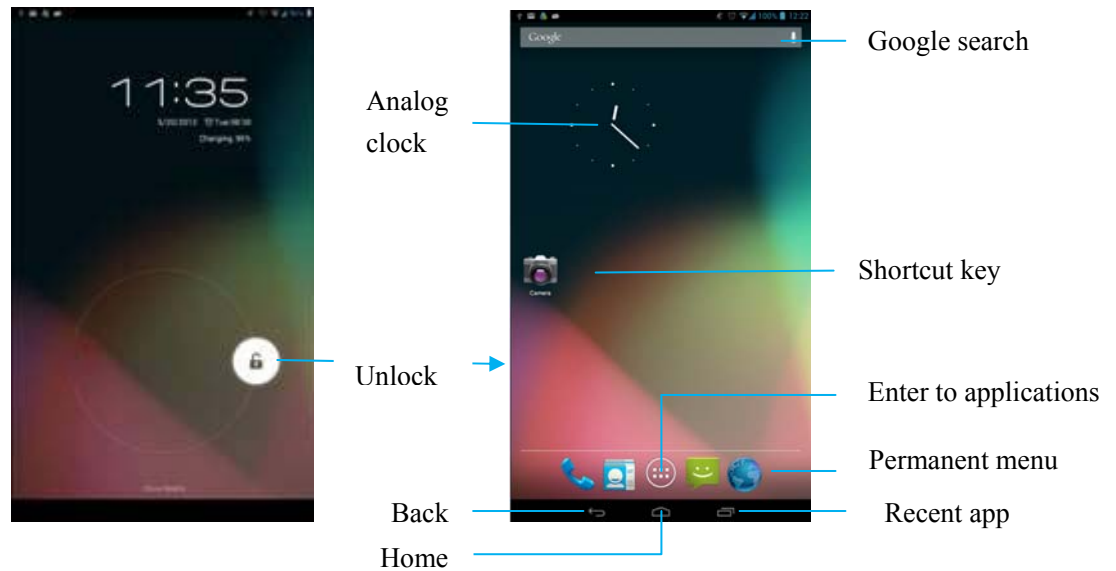

Ground

Don't drop your tablet.

- ◆ **Voice call ringtone:** Set your default voice call ringtone.
- ◆ **Video call ringtone:** Set your default video call ringtone.
- ◆ **Default notification:** Set default notification.

- ◆ **Dial pad touch tones:** Open/close dial pad touch tones.
- ◆ **Touch sounds:** Open/close touch sounds.
- ◆ **Screen lock sound:** Open/close Screen lock sound.
- ◆ **Vibrate on touch:** Open/close vibrate on touch.

**Silent:** Silent only.

**Meeting:** Vibrate only.

**Outdoor:** Loudest ring and vibrate.

## (2) Display

- ◆ **Brightness:** Adjust screen brightness.
- ◆ **Wallpaper:** Change desktop wallpaper.
- ◆ **Sleep:** Adjust delay time before the screen automatically turns off, time can choose:  
15sec| 30sec| 1min| 2min| 5min| 10min| 30min.
- ◆ **Font size:** Adjust font size: small| normal| large| extra large.

## (3) Storage

Display storage: Include preferred install location, default write disk, internal storage, internal memory, SD card and external USB storage.

## (4) Battery

Display battery percentage.

## (5) App

**Downloaded:** Display apps that have been downloaded and show used storage and remaining storage of internal storage.

**Internal memory:** Display apps that have been installed and show used storage and remaining storage of internal memory.

**Running:** Display running apps and show used storage and remaining storage of RAM.

**All:** Display all apps and show used storage and remaining storage of internal storage.

# 7.3 Personal

## (1) Location access

- ◆ **Access to my location:** Let apps that have asked your permission use your location information.
- ◆ **GPS satellites:**
  - GPS EPO assistance:** Use GPS assistance data (EPO) to speed up GPS positioning.
  - EPO settings:** Click to modify EPO configurations.
  - A-GPS:** GPS can speed up the fixed time of location with assistant data via wireless data connection.
  - A-GPS settings:** Set up A-GPS settings.

## (2) Security

- ◆ **Screen lock:** Choose screen lock: none| slide| face unlock| pattern| pin| password.

- ◆ **SIM card lock:** Take the PIN code encryption protection of SIM card to prevent the illegal use of it. After locking the SIM card, you must enter the PIN code after every boot to unlock the SIM card, and then you can make or receive calls. Otherwise, users can also cancel the SIM protection.

### (3) Language & input

- ◆ **language:** You can switch the language because multiple languages are supported.
- ◆ **Keyboard & input methods:** Choose default keyboard and input methods.
- ◆ **Speech:** Voice search.
- ◆ **Mouse/ Trackpad:** Pointer speed.

### (4) Backup & reset

- ◆ **Back up my data:** Back up app data, Wi-Fi passwords and other settings to Google servers.
- ◆ **Automatic restore:** When reinstalling an app, restore backed up settings and data.
- ◆ **Factory data reset:** Erases all data on tablet.

## 7.4 Accounts

### Add account:

You can add Google account login, email account. You can use Google series applications, such as maps, email, and play store if you have login Google accounts.

## 7.5 System

### (1) Data & time

**Tip: Automatic data & time has three options: Use network provided time| Use GPS provided time| Off. Only choose Off option can you set date and time.**

- ◆ **Set data:** Set current data.
- ◆ **Select time zone:** Select the current time zone.
- ◆ **Set time:** Set current time.
- ◆ **Use 24-hour format:** After selection, time format is 24 hours, otherwise is 12 hour format.

### (2) Scheduled power on & off

- ◆ **ON:** Set a time, when the time comes, tablet will automatically boot.
- ◆ **OFF:** Set a time, when the time comes, tablet will be prompted whether to shut down, if there is no choice after 30 seconds, tablet will automatically shut down.

### (3) Accessibility:

- ◆ **Auto-rotate screen:** Adjust the screen to the actual direction.
- ◆ **Quick boot:** When it is on, tablet can restart quickly for the power is not completely off.

#### (4) Developer options

We mainly use connected USB debugging, other options are for optimizing system.

#### (5) About tablet

Display System updates, status, model number, android version, baseband version, kernel version, build number.

**Status:** Battery status, battery level, network, signal strength, mobile network type, service state, roaming IMEI, IP address, Wi-Fi MAC address, Bluetooth address, uptime.

## 7.6 USB data line description

When using USB data line to connect tablet and the computer, tablet interface will jump out the following interface:

Only after clicking to turn on the USB storage device can tablet interact with the computer, otherwise they cannot interact. When you turn on USB storage, the icon will show turn off USB storage, if you click it again on the tablet will stop interaction.

If the tablet interface does not jump out of the interface or you want to check whether they have a connection, you can pull out the status bar and click USB has been linked icon in the notification interface to enter the interface view.

If you need USB mode debugging, you can open tablet Settings>> Developer options>>Debugging>>USB debugging, and then tablet will connect computer via USB data line.

#### **FCC Caution:**

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

## **Specific Absorption Rate (SAR) information**

SAR tests are conducted using standard operating positions accepted by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands, although the SAR is determined at the highest certified power level, the actual SAR level of the equipment while operating can be well below the maximum value, in general, the closer you are to a wireless base station antenna, the lower the power output.

Before a new model phone is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the exposure limit established by the FCC, Tests for each phone are performed in positions and locations (e.g. at the ear and worn on the body) as required by the FCC.

For body worn operation, this equipment has been tested and meets the FCC RF exposure guidelines when used with an accessory designated for this product or when used with an accessory that contains no metal and that positions the handset a minimum of 0 cm from the body.
