

19 November 2020

Declaration RF equality – Avalon CL Transducer 866075, 866076, and 866077

To Whom It May Concern:

Product: Avalon CL Transducers
FCC ID: PQC-OBRTBV1

We hereby declare, that the RF related part of 866075, 866076, and 866077 are identical.

They only differ in the frontend functionality:

866075 has a Toco, Maternal Pulse, and ECG functionality.

866076 is with an Ultrasound Doppler Frontend and

866077 is a subpart of the 866075 without the Toco functionality.

These frontend boards are completely separate and connected via 2 connectors to the CPU boards where the RF part is located.

Sincerely

Christian Noguera
