Temporary confidentiality from public disclosure is important for Philips Medical Systems from a commercial perspective. It enables the company to complete its development and regulatory efforts prior to introducing the product to the marketplace. Releasing information on the product via the FCC website prior to formal market introduction can be confusing to our customers and the medical community, and places the company at a competitive disadvantage.

Sincerely,

A handwritten signature in cursive script that reads "Terrence Sweeney". The signature is written in black ink and has a long, sweeping horizontal line extending to the right.
