

REGARDING THE PROPOSED TRANSACTION

Philips Medical Systems North America Co. , a division of Philips Electronics North America Corp. (“Philips”), is hereby filing the instant FCC application pursuant to Section 2.933 of the Commission’s Rules. As part of a proposed transaction, Philips will assume ownership and control of the division of Agilent Technologies, Inc. (“Agilent”) that produces biomedical telemetry transmitters governed by Part 15. Accordingly, Philips hereby requests that the Commission issue an updated FCC identifier for the subject equipment certification using Philips’ grantee code in lieu of the former code. Attached herewith are letters from Agilent and from Hewlett Packard, the original grantee, authorizing the change in FCC identifier. This application does not contemplate any technical change whatsoever to the device, but is intended as a purely administrative modification.
