Dear Sir or Madam,

This is just in clarification that we request compliance to both Parts 15 and 95 in the Grant modification of PQCM2601A. We would like the Part 15 compliance for the full range of 590-632 MHz, as is currently granted, and Part 95 for the 608-614MHz range.

Please do not hesitate to contact me if you have any questions or require additional information.

Sincerely,
