Subject: Application for Radio Grant for M4842A, 731 Confirmation Number: EA408759
REVISED REQUEST FOR CONFIDENTIALITY – Replaces 25-Aug-04 version

Dear Sir or Madam,

Philips Medical Systems has submitted an application for Equipment Authorization under 47 CFR Part 95, Subpart H for a wireless medical telemetry station transmitter, Model M4842A.

The filing includes:

- 1. Block Diagram
2. Functional Description
3. Schematics
4. Bill of Material
5. Internal Exploded View
6. External Device Photograph
7. Instructions for Use
8. Part 95 Test Report
9. FCC ID Label

Under the provisions of Section 0.457(d) of the Commission’s Rules, and Section 552(b)(4) of the Freedom of Information Act, Philips Medical Systems hereby requests that items 1-4 listed above be granted Indefinite Confidentiality from public disclosure, as this information is deemed to represent trade secrets:

Under the provisions of FCC Public Notice DA 04-1705, dated 15-Jun-04, Philips Medical Systems hereby requests that items 5-7 listed above be granted 45-day Limited Confidentiality from public disclosure. Limited Confidentiality is important for Philips Medical Systems from a commercial perspective. It enables the company to complete its development and regulatory efforts prior to introducing the product to the marketplace. Releasing information on the product via the FCC website prior to formal market introduction can be confusing to our customers and to the medical community, and places the company at a competitive disadvantage.

To summarize:

Table with 3 columns: Indefinite Confidentiality, 45-day Limited Confidentiality, No Confidentiality. Rows include Block Diagram, Functional Description, Schematics, and Bill of Material.

Thank you in advance for your consideration of this application. I can be reached at (978) 659-7383 or by e-mail to: barry.wyshogrod@philips.com. If I am not available, please contact Ms. Denise Haley at (978) 659-4358 or by e-mail to: denise.haley@philips.com.

Sincerely yours,

Barry Wyshogrod, Regulatory Engineer
