Subject: Product Variant for the RFID RTLS PORTAL series
FCC ID: PQG-LS4550G2

This document covers system description and regulatory information about the LS45x0 G2 family of RFID portals, to be sold in USA and Canada.

The fully featured model is LS4550 G2 NA-LTE-ETH. The other reduced models below where some features have been removed have been tested to also comply with the FCC Part 15, Subpart B requirements.

Note that all models below include transmitters operating in the 125kHz, 434MHz, and 902-928MHz frequency bands.

HVIN
