Re: Class II Permissive Change for Lyngsoe Systems Module, FCC ID: PQG-PR34X-V granted on 4/14/2016

To whom it may concern:

Pursuant to CFR § 2.1043 Lyngsoe Systems hereby requests a Class II Permissive Change for the above radio module to be co-located with other two radio modules as stated below in a single host product.

- Inclusion of following 2 FCC certified Unlicensed Radio Modules:
 - o FCC ID: QPU8000 (Wi-Fi Module)
 - o FCC ID: QV5MERCURY6E-M (RFID Module)

There are no other hardware or radio parameter changes to any of the modules.

The PR34X-V, includes the above modules on a host printed board assembly. The PR34X-V remains compliant with all the applicable FCC rules as per the attached MPE Evaluation report.

Sincerely

Don Ferguson
President.
