AN02T1758

Dear Joe:

Most of 15.247 mobile device are required to present MPE information to make sure the device can comply with 20cm separation distance.

It is my understanding that ETC always measured MPE result but most of labs did not do so. MPE can be calculated and be presented as distance based on the field strength and antenna gain. This information is for your reference.

Best Regards

Mike Kuo

Dear Mike,

Would you mind to explain that what situation we need to provide MPE data? Do all devices of wireless LAN need? Like this case?

Best regards,  
Joe
