RE: Prime Electronics & Satellitics

FCC ID: PQPWU233G

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) I note that no Confidentiality letter was presented. Please review with your client and be sure that no Confidentiality for block diagram or schematics is required.
- 2.) The Manual has multiple references to a PCMCIA card. This RF category "Mobile" device is not a PCMCIA card. Kindly review your Manual and correct.
- 3.) Please confirm with your client that end users will not have the ability to set channels other than 1-11 in North America. Use of channels 12 and 13 are prohibited.

William H. Graff
President and Director of Engineering

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
