Dear Dennis,

As for FCC inquiry on 5GHz bands, please find our following reply:  
"We applied 15.407 to the frequency range, 5180-5320 and 5745-5805MHz bands. and 15.247 to 5825MHz band."

In addition, we modified Operational Description (page 8).  
If there are any problem with it, please inform me.

Best regards,

Yukari Ito
