To Whom It May Concern:

This is to request a Class II permissive change for FCC ID: PQRDS540-MPCI6AP, originally granted on June 13, 2007.

The major change field under this application is:

Change #1: Deletion of 5250 to 5320MHz band from FCC grant. We only modified the software for this change and there is no change on hard ware. The software change does not change any RF circuitry and that it does not affect EMC characteristics of the device.
