Introduction

The 2.4GHz Bluetooth Wireless Optical Mouse and Bluetooth USB adapter can create a flexible, convenient and wireless working environment. The optical mouse with ergonomic design offers high frequency penetration, low interference, and omni-directional signal transmission. Employing reliable 2.4GHz Bluetooth wireless technology, the Bluetooth Optical Mouse can be positioned up to 10 meters away from the PC in any direction (or angle), even with objects placed between the mouse and the adapter. For example, a Bluetooth-enabled printer in the radio range can receive documents from the computer wireless and print the documents.

Bluetooth USB Adapter is a Bluetooth enabler, that enables your desktop or notebook computer to connect wirelessly to any other Bluetooth enabled computers and devices. It allows a working range of up to 10 meters (33 feet) with a 723 Kbps data rate transmission, and complies with Bluetooth 1.1 and USB 1.1 specifications. Bluetooth USB Adapter is an ideal solution for home and mobile networking needs. It is easy to install and use for wireless connectivity to such as cellular phones, PDAs, printers, computers, keyboards, mice etc.

Bluetooth Installation CD contains:

- Widcomm v1.4 driver for USB Adapter
- BTW User's Guide

Overview

Bluetooth is a low-power wireless networking standard, which uses short radio links to allow electronic devices to communicate with other without using cables.

The following services are supported by Bluetooth technology:

- Synchronize your Bluetooth PDA with your computer.
- Send your business cad to anyone who has a Bluetooth enabled device.
- Send or receive files to or from anyone who has a Bluetooth enabled device.
- Send an e-mail without being wired to the network.
- Dial up to internet on your computer over your Bluetooth cellular phone.
- Send a fax from your computer over your Bluetooth cellular phone.
- Chat with anyone who has a Bluetooth enable computer.
- Play a one-on-one serial game without a cable.

Most Bluetooth enabled devices may act as:

- A Bluetooth host can provide one or more services, such as access to the internet or to other Bluetooth devices.
- A Bluetooth client can use the service provided by Bluetooth servers.
- Bluetooth devices can act as both host and client, and do both at the same time.

System Requirements

- CPU: Intel Pentium III 500MHz or above.
- System Memory: 256MB or more.
- Hard disk space: at least 50MB.
- OS: Windows 98SE/Me/2000/XP
- MAC OS 10.1.4 or later
- A free USB port, USB 1.1 compliant.
- CD-ROM Drive.

Software Installation

Note: Do not plug your Bluetooth USB Adapter into USB port until you have completed the software installation as the following:

- 1. Insert the driver CD into a CD-ROM drive. The setup program will start automatically.
- 2. In case the drive doesn't support auto-run function, please find "setup.exe" file at the root of driver CD. Double click it to start installation process.

(Note: the following pictures will be a little bit different if you are installing on Windows XP)

CONGRATULATIONS! Now your computer is Bluetooth Enabled.

Install batteries for Mouse

- 1. Remove the battery cap from the top of the mouse by pressing the buttons as pictures shown.
- 2. Insert the supplied 1.5 V AAA Alkaline batteries, making sure that the positive (+) and negative (-) ends of each battery match the polarity indicators inside the battery housing.

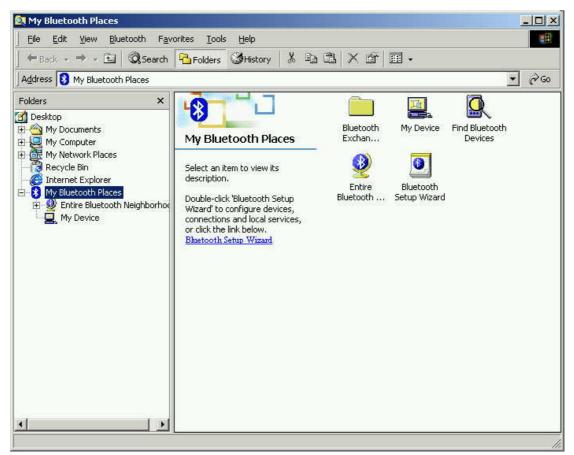

3. To save battery power, turn off the mouse while traveling or when you're not using it. To turn off the mouse, slide the on/off switch at the bottom of the mouse.

(mouse 302-1.jpg)

Pairing the mouse

1. Launch "My Bluetooth Places" by double clicking the short cut on the desk or the Bluetooth icon on the task bar.

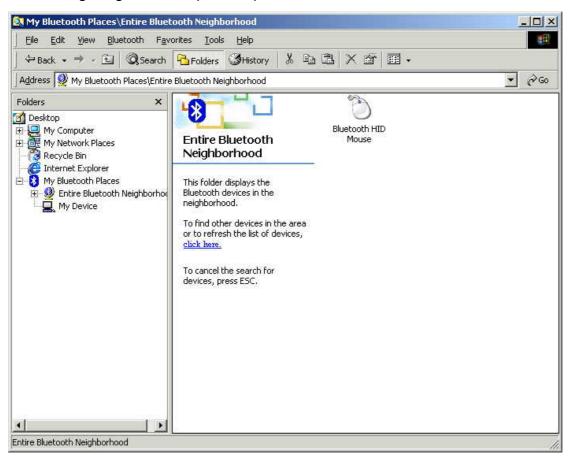

(08.jpg)

2. ". Press the "Pairing Button" on the bottom of the mouse.

```
(mouse 302-3.jpg)
```

3. Run "Find Bluetooth Devices". System will search all available Bluetooth devices in working range. When system finds the mouse, it will show a "Bluetooth HID Mouse" icon in "Entire Bluetooth Neighborhood". If you can't find the mouse icon, make sure that the batteries are fully charged and the mouse is in the

working range. Then repeat step #2 and #3

(11.jpg)

4. Move the cursor on the mouse icon, right click it and select "Pair Device".

Power Consumption	<45 mA @ working mode
	<0.4 mA @ sleeping mode
Battery type	1.5 V, AAA, Alkaline
Weight	95 grams without battery
Working Temperature	-10 ~ 55 ℃
Storage Temperature	-10 ~ 65 ℃
Approval	CE, FCC

FCC Safety Statements

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

- 1. This device may not cause harmful interference.
- 2. This device must accept m\any interference received, including interference that may cause undesired operation.

The radiated output power is far below the FCC Radio frequency exposure limits. Nevertheless, this device should be used in such a manner that the potential for human contact during normal operation is minimized.

Warning: Change or modifications made to this equipment not expressly approved by Cellink Co., Ltd. May void the FCC authorization to operate this equipment.

Important

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

Regulatory Information
