Model: KSR-JA DPCI: 056-00-8487

Input: 3V ~ 50mA Made in CHINA

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:
1) this device may not cause harmful interference, and 2) this device must accept interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

TargetCorp. Mpls. MN, 55403 Phone: 1-612-304-6073

Radiation Exposure Statement:
The product complies with the FCC portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

NOTE: Do not mix old and new batteries and do not mix alkaline, standard (zinc-carbon) or rechargeable (nicad, NiMH, etc.) batteries.
Battery life may vary depending on user and computing conditions.

cover

detailed setup

- This keyboard can be paired with up to 3 different devices
Use    keys to switch connection channel between wireless USB receiver and 2 other Bluetooth channels

- Press and HOLD "fn" and SHORT press    keys ONCE to switch between each channel (the default channel is "wireless USB receiver")
For example, if you are using channel "wireless USB receiver" () and want to switch to channel "Bluetooth Channel 1" () to connect with another device, just press and HOLD "fn" and SHORT press  once to switch it, its LED indicator will start to flash / light up in green, same for switching to "Bluetooth channel 2" () its LED indicator will start to flash/light up in red and "wireless USB receiver" its LED indicator will start to flash/light up in green ()
- This keyboard can automatically detect operating systems
It can automatically detect the operating system (Windows or Mac) on the current device and remap keys to provide functions and shortcuts where you expect them to be. But if it fails to correctly detect the operating system of a device (incorrect key layout), you can still manually select the operating system by using combination keys below

"Fn + P" long press switch to Windows	"Fn + I" long press to switch to Mac
---------------------------------------	--------------------------------------

connect via wireless USB receiver
It is plug and play for USB receiver, make sure power is on, plug in USB receiver into available USB A port on device and set connection channel on "wireless USB receiver"

- Trouble shooting**
If it is not working, try below steps to re-pair keyboard and USB receiver
1. Turn off your keyboard and re-plug in USB receiver, turn on power (make sure channel is set on )
2. Press and HOLD "Fn" and LONG press  key (keep keyboard close to receiver)
3. If it does not work after 10 seconds, reboot your device and repeat step 1 to 3

connect / pair via Bluetooth in Windows

- Turn on your keyboard and set it on either Bluetooth channel  or 
- Click on Start Menu (bottom left corner of your screen)
Go to Settings -> Device -> Bluetooth & other devices
Turn on Bluetooth -> Add Bluetooth or other device -> Add a device (Bluetooth)
- Press and HOLD "Fn" and LONG press  or  key to set keyboard in pairing mode so that it can be found on your device (its LED will start to flash in green for  and in red for )
- Click on "heyday compact kb" to connect / pair (its LED will stop flashing and light up in green for  and in red for  and then go off when pairing is completed)

connect / pair via Bluetooth in Mac

- Turn on your keyboard and set it on either Bluetooth channel  or 
- Click on Apple menu (top left corner of your screen)
Go to System Preferences -> Bluetooth -> Turn Bluetooth on to set up Bluetooth device
- Press and HOLD "Fn" and LONG press  or  key to set keyboard in pairing mode so that it can be found on your device (its LED will start to flash in green for  and in red for )
- Click on "heyday compact kb" to connect (its LED will stop flashing and light up in green for  and in red for  and then go off when pairing is completed)

- Trouble shooting**
If it is not working, try below steps to re setup
1. Turn off your keyboard and turn on power again (make sure channel is set on  or )
2. Make sure to turn on Bluetooth on your device
3. Press and HOLD "Fn" and LONG press  or  key to set keyboard in pairing mode, make sure it is discoverable on your device and then pair with your keyboard
4. If it does not work after 10 seconds, reboot your device and repeat step 1 to 3

If it is not working on previous paired devices, make sure to turn on Bluetooth on that device and set keyboard on correct Bluetooth channel
For example, a tablet has paired with , and a laptop has paired with 
Set keyboard on  if you want to use keyboard on that tablet

low battery
If this LED starts to flash in red, it means you need to change battery
