PRODUCT GUIDE

November 26, 2021, V1

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Radiation Exposure Statement:
The product complies with the FCC portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Walmart Inc.,
Bentonville, AR 72716

Before Use

Notes:
All parts have to be unpacked and the packaging material has to be removed completely. Before use, verify the package contents are complete and undamaged.

BATTERY WARNING STATEMENT
Do not mix old and new batteries.
Do not mix alkaline, standard (carbon-zinc), or rechargeable (ni-cad, ni-mh, etc) batteries.

Help with Setup

USB nano receiver
Mouse is not working?

1. Is the mouse powered on? Make sure channel is set on (1) or (2)
2. Is the nano receiver securely plugged into a USB port?
3. Try changing USB ports
3. If the nano receiver is plugged into a USB hub, try plugging it directly into a USB port on your computer
4. Check the orientation of the battery inside the mouse
5. Try a different surface. Remove metallic objects between the mouse and the nano receiver

If it is still not working, try steps below to repair mouse and receiver

A. Re-plug receiver into USB port on computer, make sure channel is set on (1) or (2)

B. Press the connect button on mouse (Keep mouse close to receiver)

C. If it does not work after 10 seconds, repeat steps A and B

Bluetooth®
Mouse is not working?

1. Is the mouse powered on? Make sure channel is set on (1) or (2)
2. Make sure turn on Bluetooth function on your computer
3. Check the orientation of the battery inside the mouse
3. Try a different surface. Remove metallic objects between the mouse and computer (laptop)
4. Set mouse in pairing mode, make sure it is discoverable on your computer and then complete pairing
5. If it does not work after 10 seconds, repeat step 1 to 3

Reconnection
Under Bluetooth connection (either Bluetooth 1 or 2) mouse and keyboard can automatically reconnect to their last connected computers, but if it fails, you can always re-pair again
