

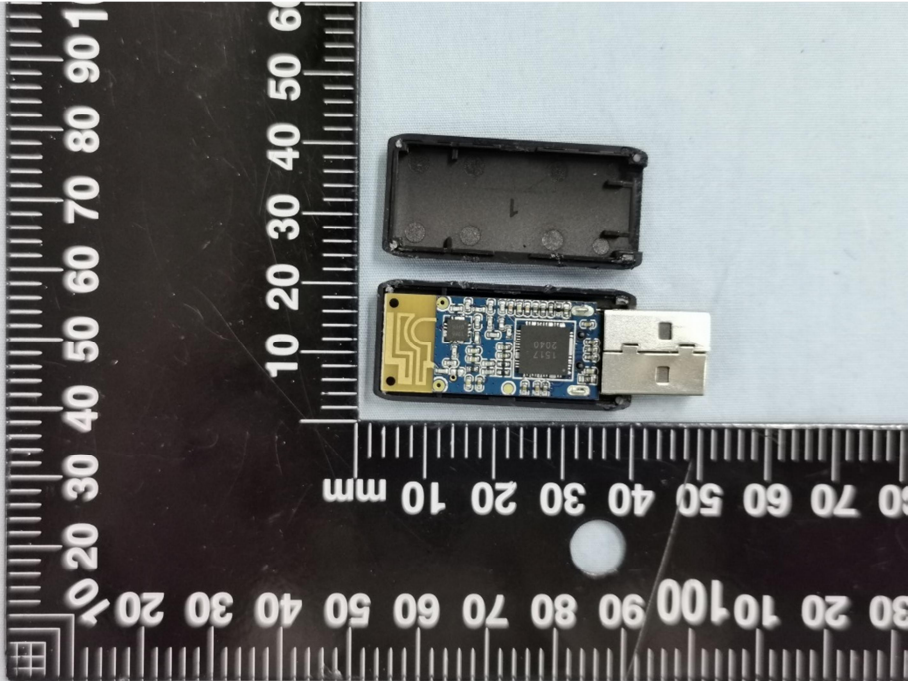

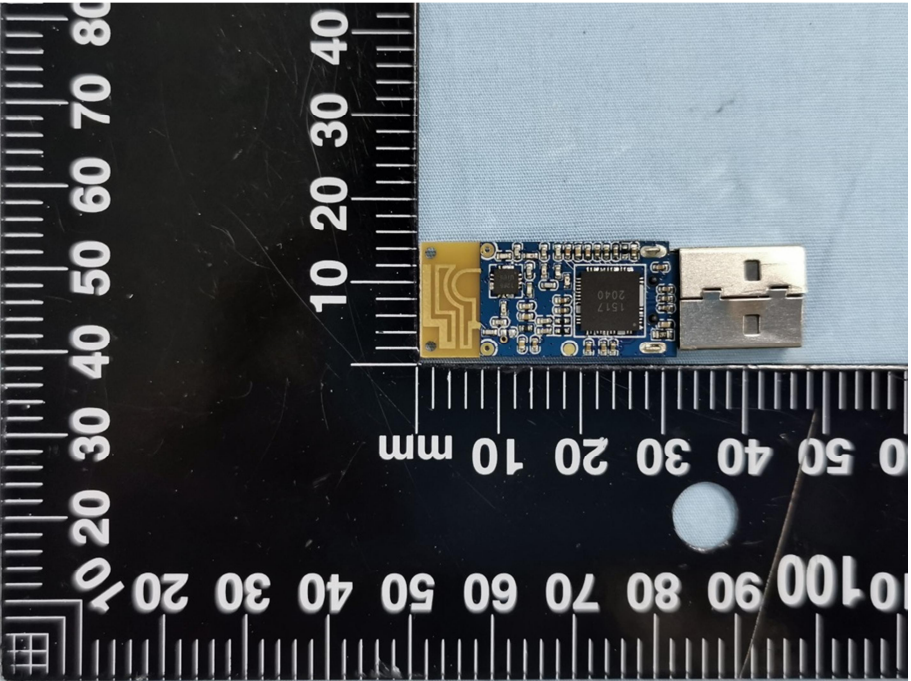

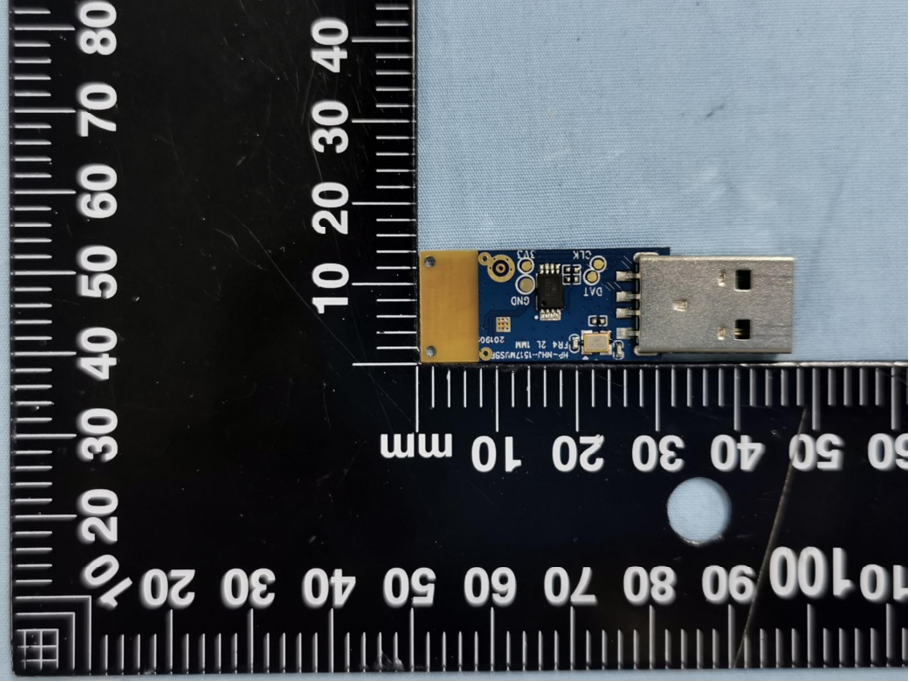

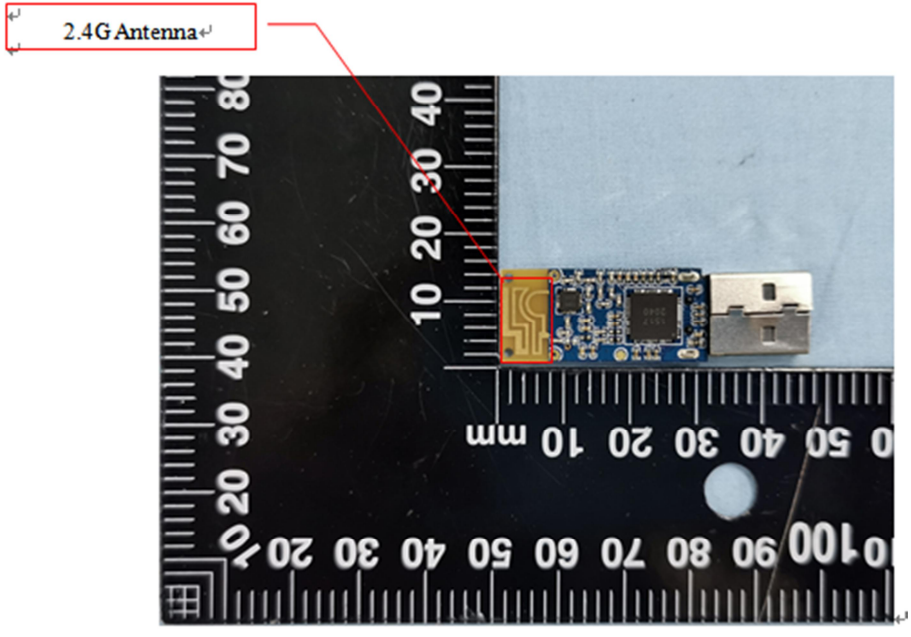

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	 A photograph showing the EUT housing and board. The housing is a black plastic shell, and the board is a blue PCB with a USB connector. A ruler is placed below the components for scale, showing measurements in millimeters. The ruler is oriented vertically, with the 0 mark at the top and the 100 mark at the bottom.
<p><b>Solder Board-Component View 1</b></p>	 A close-up photograph of the soldered board component. The board is blue with a USB connector. A ruler is placed below the component for scale, showing measurements in millimeters. The ruler is oriented vertically, with the 0 mark at the top and the 100 mark at the bottom.

<p style="text-align: center;"><b>Solder Board-Component View</b> 2</p>	 <p>A photograph showing a small blue printed circuit board (PCB) component with a silver USB connector. The component is placed on a black background with a white metric ruler for scale. The ruler shows markings from 0 to 100 mm. The component is oriented vertically, with the USB connector on the right side. Various components and labels are visible on the PCB, including 'GND', 'VCC', 'CLK', 'DVI', and 'G2'. The component is soldered to a larger board, which is partially visible on the left side of the image.</p>
<p style="text-align: center;"><b>Antenna View</b></p>	 <p>A photograph showing the same blue PCB component as in the previous view, but from a different angle. A red box highlights a specific area on the PCB, labeled "2.4G Antenna". A red line points from this label to the highlighted area. The component is placed on a black background with a white metric ruler for scale. The ruler shows markings from 0 to 100 mm. The component is oriented vertically, with the USB connector on the right side. The highlighted area shows a small, rectangular antenna structure on the PCB.</p>
