Gentlemen:

After speaking with a member of the FCC Laboratory staff, Mr. Dichoso, I would like to clarify what is meant by radio chip in the original cover letter. The references to radio chip in the correspondence refers to the complete radio transceiver assembly which is implemented in a single package. Thus, the processing gain measurements performed for FCC ID: CGK8001001 as referenced in FCC ID: PNI8001001, are applicable to this unit.

Regards,

Phillip Inglis
