There continues to be some minor problems with Exhibits associated with several of your spread spectrum reports. Please address.

- 1.) The only items which should be checked off as Confidential at the AmericanTCB website are those items which are noted in the Request for Confidentiality letter. When this procedure is not followed, extra processing time may be added to the application.
- 2.) Cover Letters can never be held Confidential. This flag will be removed from the POA and Confidentiality Letter before uploading to the FCC website.
- 3.) The photographs are a mix of Internal and External views. Please segregate the photos into one exhibit for Internal Photographs, and a second exhibit for External Photographs. Since Confidentiality is requested for Internal Photographs, the Grant cannot be issued until these are properly separated.
- 4.) Please provide better photographic views of the external ports on this device.
- 5.) Please make all photographs one to a page. 2.1033(b)(7) implies the preferred size is A4 (8" x 10").
- 6.) Please shrink the total file sizes for photographs. There are very few instances where a complete set of internal or external views should be more than 1MB.
