Modular approval. Output power listed is conducted. This device supports 20MHz bandwidth for 802.11b/g/n. This module may be installed only by the OEM or an OEM integrator. The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons. Installation in portable host configurations requires additional evaluation and certification. Grantee must provide instructions and coordinate with OEM integrators to determine applicable host configurations to ensure compliance including RF exposure and simultaneous transmission.

CC: This device is certified pursuant to two different Part 15 rules sections.
