FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
 (1) This device may not cause harmful interference, and
 (2) this device must accept any interference received, including interference that may cause undesired operation.
 Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Tips

1. Please read this manual carefully prior to using the device and keep the manual properly.
2. For first time use, please fully charge both cell phone and earphone. The LED will indicate a solid red if the earphone has low battery and cannot be powered on.
3. Please be sure that your Bluetooth earphone is in "pairing mode" if it cannot be spotted on your cell phone. The device will exit "pairing mode" if unpaired or unconnected for a long time. Then you may need to set it to "pairing mode" again. If any error occurs in cell phone or this device, please restart your cell phone or earphone, or reset earphone to its default setting.
4. Low battery is indicated by red blinking LED and voice prompt. LED will be solid red when charging, and turn blue once fully charged. The charging time is around 2 hours. Please note: Bad contact caused by improper operation or other reasons may switch off the LED light even when charging, which will result in incomplete charge. So please plug in the USB charger properly and keep the device stable while charging until it is fully charged.
5. This earphone cannot connect via Bluetooth while charging.

Warnings

1. Never disassemble or modify your Bluetooth earphones for any reasons to avoid any damage and danger.
2. Do not store the Bluetooth earphones in extreme temperatures (under 0°C or over 45°C).
3. Avoid using the indicator close to the eyes of children or animals.
4. Do not use this Bluetooth earphone during a thunderstorm to avoid irregular function and increased risk of electric shock.
5. Do not use harsh chemicals or strong detergents to clean the Bluetooth earphone.
6. Keep the Bluetooth earphone dry. Caution: Please arrange usage time properly, as long time use can damage hearing.
7. If the cap is not closed completely, the water resistant performance may deteriorate and cause a malfunction.
