Subject: Request for withholding from public disclosure the schematic diagrams, block diagrams and operational description pursuant to an application for certification.

Gentlemen:

We, TROY Group, Inc., request that certain items submitted with our application for certification be withheld from public disclosure per 47 CFR Section 0.457 of the FCC rules. Due to the competitive nature of our business we desire to keep our technical knowledge confidential in order to retain our competitive advantage and therefore request the following items not be posted on a website for all to see:

1. Schematic diagrams
2. Block diagrams
3. Operating descriptions

This request is made under the provisions of Section 0.457 (d) of the Commissions rules, and Section 522 (b)(4) of the Freedom of Information Act. These sections authorize the withholding from public inspection, those materials which would be privileged as a matter of law if retained by the person submitting them, and materials which would not customarily be released to the public by that person.

If you have any further questions or need additional information, please feel free to give me a call at (877) 324-3254.

Sincerely,

A handwritten signature in black ink that reads "James A. Hebert".

James Hebert
Vice-President of Engineering
