Hi Amanda and Kelsey,

Please disregard my previous email and address following issues instead.

1. Please point out the Bluetooth module and its antenna from the EUT internal photos. According to the internal photos, if the Bluetooth module is in the last page, then please point out where the PCB antenna is located. If the antenna is located on the top of EUT as page 2 of internal photos shown, then please provide its photo as well.

Ans: Please see the page 5 & 9 of the internal photos.

2. Please confirm if the schematic of the Bluetooth module is complete.

Ans: Please refer to page 9 of the revised schematic.

3. According to the internal photos, some modifications are made and please provide a letter to show the modification are approved by manufacturer and will be implemented to the production.

Ans: Please see the DoC letter as attachment.

4. According to test setup photos, there are additional accessories connected during test, but no information indicated in test report. Please address.

Ans: Please see page 11 of the revised test report.

The client changes the model number, please see the revised test report.

5. According to the user manual, the EUT is able to be mounted inside the car as a mobile device. Please confirm if this configuration has been verified during the test.

Ans: Yes, the test has been verified and the worst case data has been shown in the report .

Best Regards

2007/9/17
