Dismissed request for FCC ID: PU5-LPM

To Whom It May Concern:

We regret to inform you that we ask to dismiss FCC ID: PU5-LPM. Since we need to modify documents and upload to FCC website for product and model name change. But this is not acceptable in tracking no. 369218. So we decide to dismiss the FCC ID. And the device has not been marketed and/or sold on the market.

1 results were found that match the search criteria:
Grantee Code: PUS Product Code: -LPM

Inquiry:

Dear Sir:

A single modular FCC id: PU5-LPM got FCC grant on Aug 22 2011.

But now we need to upload revised documents to replace that shown on FCC website as outlined below with red color per client's request. (Please check attached file)

Below is reason from our client:

Due to our client inform us that they concern the product and model name we apply to word if will certificate, we will change the product and model name on the label as below.

Product name: 20211 Lgn Hybrid Switch Module

Model name: LP1110 module

So following 4 documents will be modified for product and model name changed. (Please check attached file)

Can FCC accept the change for product and model name will agree to replace original documents?

Thanks for your reply

Response:

Hello,

A request for the supersede of more than two exhibit types requires dismissal. Please reference KDB Publication # 546630 - TCB Superseda Policy. Additionally, we do not accept changes made for the purpose of changing the model name and/or number.
