RE: Wistron Corporation

FCC ID: PU5-X61T

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) Labels are never able to be held Confidential – either short or permanent. The reason is a requirement that US enforcement or customs officials need to easily identify the products as they arrive onshore. Holding labels confidential is never appropriate.
- 2.) Internal photos may be eligible for short term confidential treatment, but never permanent confidentiality. Please correct your confidentiality request letter.

William H. Graff  
President and Director of Engineering

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
