Re: FCC ID PU5MS2133
Applicant: Wistron Corporation
Correspondence Reference Number: 25758
731 Confirmation Number: EA859241

- 1) fyi no-response: per reply to crn 25642 #s 1-4, it is noted application is for card in laptop

Understood

- 2) per reply to crn 25642 #3, internal photos show bluetooth card. please revise internal photos to call out locations of bluetooth card and all antennas, with respect to laptop external case.

Additional internal photos have been included to point to the location of the Bluetooth transmitter and antenna on the laptop. Also, a photo with text pointing to the location of Bluetooth device and all antennas with respect to the external case of the laptop.

- 3) please confirm bluetooth will always be installed with this FCC ID. separate FCC ID is probably needed if there is option for laptop model with LAN but no bluetooth.

Bluetooth will be installed with FCC ID stated on 731 form.

- 4) per reply to crn 25642 #5, uploaded user manual files are still damaged - please re-create the pdf's

The "errors" displayed in the manual are do to the illustration pictures only and the manual itself is not completely damaged. We are in the process of getting a manual that will display these pictures and get rid of the "errors" you are encountering.

Note: Replies to questions 5 to 8 (SAR portion) have been uploaded separately.

If you need further information or clarification please do not hesitate to contact us via doc@elliottlabs.com.

Regards

Juan Martinez
