

WARNING: Exposure to Radio Frequency Radiation

The radiated output power of this device is far below the FCC radio frequency exposure limits. Nevertheless, the device should be used in such a manner that the potential for human contact during normal operation is minimized. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, human proximity to the antenna should not be less than 2.5 cm (1 inch) from a person's hand, wrist, feet and ankles and not be less than 5 cm from a person's body during normal transmitting operations.
