### Lighting Facts

Brightness: 800 lumens  
Estimated Yearly Energy Cost: \$1.14  
Energy Star:

Life: 15.7 years  
Light Appearance:

Energy Used: 9.5 watts

Provides nearly the same light output as a 60-watt incandescent bulb (800 lumens vs. 840 lumens).

**Limited Warranty: Guaranteed to last 3 years based on rated life of 3 hours use per day at 120V.** For warranty information, please visit [www.ge.com/warranty](http://www.ge.com/warranty) or contact GE Lighting, a Savant Company, Product Services Dept., 1975 Maple Rd., Cleveland, OH 44122 to request a free copy of the warranty terms.

**CAUTION**  
This product is not suitable for dimming. Do not use with dimmers, electronic ballasts, or photocells. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.  
See inside panel for more information.  
Minimum starting temperature -20 °C.

Estimated Energy Cost: \$1.14 per year  
1 BULB

LED | A19 Dimmable with app

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential environment. This equipment may cause harmful interference to radio, television, mobile phones, cordless phones, and other wireless devices. This equipment may also receive harmful interference from such communications devices. Interference can be caused by improper installation, use and/or modification of this equipment. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures: reorient or relocate the receiving antenna; increase the separation between the equipment and receiver; connect the equipment to an outlet on a circuit different from that to which the receiver is connected; or consult the dealer or an experienced technician for advice.

**Direct Connect**  
The smart light connects directly to your Wi-Fi router providing voice control through voice assistants (sold separately) and control away from home - no hub or bridge needed.

**Set Schedules**  
Avoid coming home to a dark house by setting your light to turn on automatically. Schedule your light to turn off during the day to save energy cost.

**Simple Setup**  
Works right out of the box using your Wi-Fi and the CYNCR or the Google Home app\*\*

\*\*Pairing with other CYNCR or C by GE devices requires setup using the CYNCR app

A family of smart products that work together in one app.

CYNCR enables smart home control, including voice\* and away from home

**Comfort. Control. Confidence.**  
Easy to set up, and connects to other CYNCR and C by GE devices. CYNCR smart home products help elevate the comfort, control and confidence of your home.
