! IMPORTANT NOTE ON 3-WAY WIRING:

Some lights have one wall switch, while others are controlled by two or more wall switches (such as stair lights, which have a switch at both the top and bottom of the stairs). If your lights have more than one switch (called a 3-way), we've created instructions for how to install and enable the capability.

Visit cbyge.com/switch-support for 3-way installation instructions and how-to-videos.

For Help, Go To: cbyge.com/switch-support or call 1-844-30C-BYGE

STEP 3

Connect The Wires

1. Connect the neutral (white) wire on the switch to the neutral (white label) wire from the wall.
2. Connect the line (black) wire on the switch to the line (black label) wire from the wall.
3. Connect the load (black) wire on the switch with the load (black label) wire from the wall.

NOTE: Both black wires on the switch are interchangeable and can be connected to either the load or line wire from the wall.

4. Connect the ground (green) wire on the switch with the ground (green label) wire from the wall.
5. Cap the 3-way/multi-way traveler wire (if applicable). For 3-way switch setup, visit cbyge.com/switch-support
▲ Attention: Incorrectly connecting the Neutral or Ground wire from the wall to the Line or Load wire on the switch will damage the product.

LED indicator light will continuously flash blue until the switch is added to the C by GE app.

LED indicator light will flash red if the circuit is overloaded. Max load rating 1.25 amps for LED and 5 amps for incandescent/halogen.

LED indicator light will not illuminate if wired incorrectly.

IF LIGHTS DON'T TURN ON:

1. Check that power to the switch is on at the breaker.
2. Turn power off at the breaker, return to the switch to confirm the wires are securely and properly wired according to the installation guide.
3. Go to cbyge.com/switch-support for more troubleshooting.

Additional Information and Warnings

FCC Compliance Statement Compliance Notice:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules and Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications that are not expressly approved by the manufacturer could void the user's authority to operate the equipment.

RF Exposure Information:
 This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, human proximity to the antenna shall not be less than 8 inches during normal operation.

RF Exposure Statement:
 This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This transmitter must be installed to provide a separation distance of at least 8 inches from all persons and must not be collocated or operating in conjunction with any other antenna or transmitter.

For supply connections, use copper wire only rated at 75°C.

⚠ CAUTION - High Voltage - Disconnect power supply before servicing
Operation temperature: 0-40°C
For Control of Electronic Ballast, CFLs, LED, and LED Lamps.
Type 1 Enclosure
IP20
Pollution Degree 2
Impulse Voltage: 2500V
Type 1.B action

Indoor use only.

Renseignements supplémentaires et mises en garde

Déclaration de conformité aux normes de la FCC :

Cet appareil a été testé et reconnu conforme aux limites établies pour les appareils numériques de classe B, selon la section 15 des règlements de la FCC. Ces limites sont conçues pour assurer une protection raisonnable contre le brouillage préjudiciable dans une installation résidentielle. Cet équipement produit, utilise et peut dégager une énergie de fréquence radio; s'il n'est pas installé et utilisé conformément aux consignes, il peut provoquer un brouillage préjudiciable aux communications radio. Cependant, il n'y a aucune garantie quant à l'absence de brouillage dans une installation particulière. Si cet équipement ne provoque pas d'interférence nuisible à la réception de la radio ou de la télévision, ce qu'on peut déterminer en éteignant puis en allumant l'équipement, l'utilisateur est encouragé à essayer de corriger l'interférence en appliquant l'une ou plusieurs des mesures suivantes :

- Réorienter ou repositionner l'antenne de réception.
- Augmenter la distance séparant l'équipement du récepteur.
- Connecter l'équipement à une prise sur un circuit différent de celui auquel le récepteur est branché.
- Consulter le revendeur ou un technicien de radio/TV expérimenté pour obtenir de l'aide.

Cet appareil est conforme à la partie 15 des règlements de la FCC et aux normes RSS sur les appareils exempts de licence du ministère de l'Industrie du Canada. Le fonctionnement de ce produit est assujéti aux deux conditions suivantes :

1. cet appareil ne doit pas causer d'interférences nuisibles;
2. cet appareil doit accepter toute interférence reçue, y compris celles pouvant causer un fonctionnement indésirable.

Tout changement non expressément autorisé par le fabricant peut annuler les droits de l'utilisateur d'utiliser cet équipement.

Renseignements relatifs à l'exposition aux radiofréquences :

Cet équipement est conforme aux limites d'exposition aux rayons de la FCC, définies pour un environnement non contrôlé. Afin d'éviter la possibilité de dépasser les limites d'exposition aux radiofréquences établies par la FCC, toute personne ne devait pas se tenir à moins de 20 cm (8 po) de l'antenne lors d'un fonctionnement normal.

Déclaration relative à l'exposition aux radiofréquences :

Cet équipement est conforme aux limites d'exposition aux rayons de la norme IC RSS-102, définies pour un environnement non contrôlé. Cet émetteur doit être installé à au moins 20 cm (8 po) de toutes les personnes et ne doit pas être colocalisé ou fonctionner conjointement avec une autre antenne ou un autre émetteur.
