Re: Request for confidentiality

Applicant: General Electric Lighting

FCC ID: PUU90001

To whom it may concern,

Permanent Confidentiality

Request is hereby submitted by General Electric Lighting to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- **Schematics**
- **Detailed Block diagrams**
- **Detailed Operational/Functional Description**
- **Internal photos** Non-consumer device inaccessible to general public. The device is mounted on top of a Roadway Lighting Support that is only serviceable by Professional Lighting personnel.
- **User Manual** professional installation is required the user manual is not provided to the consumer since the consumer cannot service the device.

Short-term Confidentiality

Request is hereby submitted by General Electric Lighting to withhold from public review for a period of 45 days from the date of the Grant of Equipment Authorization and prior to marketing, certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept confidential for a period of 45 days from the date of Authorization:

- Test setup photos
- External photos

Rationale for request for confidentiality:

General Electric Lighting has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us. Disclosure of the short-term confidential portions of this application during the period of importation and/or distribution would reveal key aspects of proprietary technology to competitors and diminish the value of our investment in research and development.

The fee for confidentiality has been submitted along with the fee for certification. If you have questions or need further information, please contact the undersigned.

Sincerely,

Mark Wilbur
