

FCC identifier label for Bluetooth unit cB-0901-0302

S/N:0903-03-02xxxx	 FCC ID PVH090103AP IC: 5325A-090103AP
--------------------	---

The above labels will be attached to the module top side since it is not allowed to attach sticker on the bottom side of the board since the integrator of the module can solder the module on their motherboard. The label is too thick, so that the PCB will wobble in the soldering process. Through that a secure solder is not guaranteed.

The labels will be located as shown in the figures below.

An auxiliary label will be provided for systems using the module where the original label not will be visible when the module is installed.

Instructions on how to attach the auxiliary label in compliance with the modular approval guidelines developed by the FCC will be provided.

The instructions will call attention to place the auxiliary label on an exterior surface of the device such that it will be visible upon inspection.

2006-05-15

The auxiliary label will have at least the information as shown in the figure below

Where the end-product into which this modular transmitter will be integrated exceeds the size of a PCMCIA card (approx. 8cm x 10cm) the following statement shall be placed on the device:

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and**
- (2) this device must accept any interference received, including interference that may cause undesired operation.**
