

Product versions cB-0907-01

The cB-0907-01 product is available in two different versions: with or without a 32768Hz low power crystal. The module can enter sleep mode if the crystal is mounted. The crystal is always oscillating if mounted. The product tests are performed with the oscillator mounted as a worst case.

Product name	Complete part number	Type ID	Descriptions
cB-OEMSPA310i-04	cB-0907-010104	cB-0124-01	Without low power crystal
cB-OEMSPA310i-08	cB-0907-010103	cB-0113-01	Standard with all functionality
