

FCC/IC identifier label for specific host WLAN module OWSPA311gx-EP

The FCC/IC identifier label is affixed onto the module shield box next to the serial label as shown in Figure 1 OWSPA311gx-EP Serial label and FCC ID/IC label.

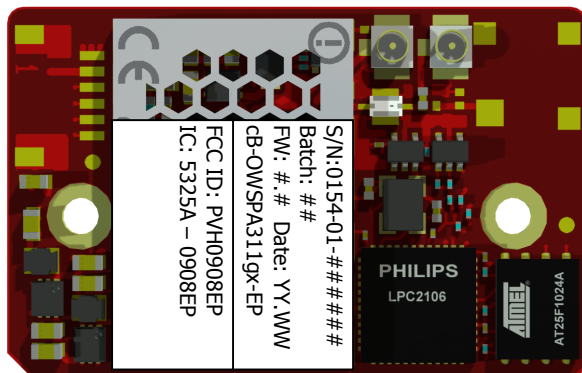

Figure 1 OWSPA311gx-EP Serial label and FCC ID/IC label

An auxiliary label will be affixed to the specific host FL-WLAN-SPA where the original label will not be visible when the module is installed.

The instructions on how to attach the auxiliary label in compliance with the modular approval guidelines will be provided in the specific host assembly specification.

The instructions in the assembly specification will call attention to place the auxiliary label on an exterior surface of the device such that it will be visible upon inspection.

The auxiliary label will have at least the information as shown in Figure 2.
