- Never contact with chemicals such as benzene, thinner etc.
- Do not close to strong magnetic field, electric field etc.
- Keep away from direct sunlight or heating appliances.
- Never privately disassemble, repair or modify the player.
- Using the player and the earpiece during bicycling, car and motorcycle driving is likely to cause danger.
- Never use higher volume, which may damage your hearing ability.
- Divide scraped packing, batteries, old electronic products and dispose them properly.

# Overview

## Basic Functions

1. Music play: support MP3, RM, FLAC, APE, OGG, MPC, AIF, WMA, AAC, WAV, AC3 these local file.
2. Picture browse: support JPEG, BMP, GIF, TIF, PNG formats.
3. Video play: full format video supports RM,RMVB,AVI,MKV, WMV,MOV,FLV,ASF, MP4,MPG,MPEG,VOB,DAT and etc.
4. Online Video: support Tudou, Youku, You tube.
5. Browser: Google browser, Google search etc.
6. E-book: support PDF, TXT, CHM, UMD, HTML and etc.
7. E-mail: Gmail, Email-client
8. Map: Google map
9. Entertainment Information: Sina news, NubiNews
10. Office Function: quick office
11. Internet chat tool: support QQ、 MSN.
12. Game support: JAVA game, G-sensor game.
13. Tool support: support calendar、 stopwatch、 calculator、 alarm clock function、 weather forecast、 Global time、 Google Play.
14. System Tool: ES task manager、 ES file browser
15. Market store: support the third party Android market store
16. Input: soft keyboard, Google PinYin ( simplified and traditional Chinese ) ,hand input: YiLu input method.
17. Setting function: support display and setting of each function's property.
18. Support HDMI port
19. File system default support FAT/FAT32, furthermore NTFS file system;
20. Firmware upgrade: support ADFU recover and USB upgrade.
21. Support multitask running;
22. Support more than 4GB file access, and multistage catalogue.

## Appearance

## Accessories

GS701B attaches the following accessories:

Accessories	Function
Power adaptor	MID charging
MID connects to USB cable	Using in connecting MID and PC to transmit data
Earphone	Using in listening to music and etc
HDMI port cable	Using in connecting TV, HDMI output

## Key

1.Key

Time 	Display current time
Wi-Fi 	MID has join up the internet via Wi-Fi. the more the signal, the stronger the signal is
Battery 	Showing the volume of battery or charging state.

## Preparation

### System Configurations

Operation system: Windows Vista/XP/2K/ME/98(needs to install driver)/Linux9 and above/Mac OS 10

CPU: It is at least Pentium-133MHz

RAM: at least 32MB

Hard disk free space: at least 100MB

Video card: 640\*480 above mode, at least it is high color (16 bit)

### ON/OFF/Standby

Press and keep the Power key can turn on/turn off

-- ON: Pressing Power key, the player displays startup picture and then enters to main interface

-- OFF: Long pressing Power button 5s on main interface, system will prompt whether to power off, then click "YES", the MID will power off normally.

-- power saving standby: on power on state, press Power key to enter lock power saving standby state, then press Power key again to lighten the screen.

### Power Reset

Press RESET to restart the player in case the player is crashed during playback.

---

## Connecting PC and Data Transmission

With the supplied USB cable to connect the PC and MID automatically pop up a new window, click on the “Open the USB storage device, enter the data transfer state.MID memory card and SD card (if the card) can be found in the My Computer list. Data transfer is complete, click”Turn off USB storage”, to exit the data transfer state.

## Charge

The player uses high volume Lilon. You can connect MID and USB port of PC or other attached adaptor in charging.

When the battery is low electricity: when the electricity is low level, MID will auto power off after appearing prompted window, at this time, don't start up the player and charge it timely.

## Use Micro SD card

After connecting the player and PC, you will find two removable disks, the front one is the built-in-memory disk, the other one is Micro SD card disk. If there is no card plugged in, the second disk cannot be opened. The player supports up to 32GB Micro SD card expansion.

**Plug-in:** face the front side (the side with prints) Micro SD card upwards (the direction in which the machine's display screen faces) and connect it with the machine by plugging it with slight force into the card slot of the machine. Now the machine can play the files in the card.

**Plug-out:** push Micro SD card inwards slightly, it will spring back for certain length, and then

---

take it out.

## *Basic Function*

**FCC Statement:**

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

**FCC Radiation Exposure Statement:**

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without RF restriction.
