### FCC Caution:

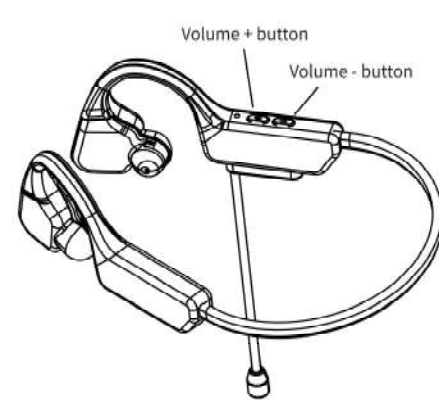

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
-- Reorient or relocate the receiving antenna.  
-- Increase the separation between the equipment and receiver.  
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.  
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

### ON/OFF

#### ON:

##### Turn off the headphones:

Long press the multifunctional button for 3seconds,alternating red and blue lights flashing.

#### Friendly Reminder

1. When A device is playing music, the headphones are playing music from A device. When B device needs to play music, it needs to pause A device's playback first, and then play B device. During this process, different devices will have a delay of 1-10 seconds before B device will start playing.

2. Special tips for charging bone conduction earphones: After the product is automatically turned off after use, if it is not used for a long time, it needs to be recharged for about 1 hour before the indicator lights up. This is not because the product has malfunctioned, but because it has not been used for a long time and the battery has been effectively protected. Please rest assured to use it!

**Product Name:** Bone Conduction Bluetooth

**Product Model:** Sam&Johnny Y501  
**Bluetooth Version:** V5.2  
**FCC ID:** PWK-Y501  
**Company Name:** HONG KONG NATURAL SOUND ELECTRONICS LIMITED  
**Company Address:** FLAT / RM M 4/F CONTINENTAL MANSION 300KING'S ROAD HONG KONG

#### Storage and maintenance

- Store the headphones in a cool, dry place. The working temperature should be 0-45°C(32-113°F). Working in a cold/hot environment, a highly humid area, or an extremely low air pressure may reduce the battery life.

- Keep the produce away from heat sources, direct sunlight, combustible gas or other liquids.

- Keeping the charging port dry before connecting to the charger will reduce the risk of damage.

- These headphones are water-resistant, but are not waterproof. Please do not submerge the headphones in water.

- Clean the headphones with a soft dry cloth.

- Do not charge right after exercising, in case there's sweat inside the charging port, which could lead to circuit burning while charging.

- After storage for a long period, please charge the headphones before using again.

#### Note

Design and specification are subject to change without notice. For the most up-to-date product information, please visit <https://www.samjohnny.net/>

#### Hearing Loss

Listening with headphones at high volume may affect your hearing and the audio will be distorted.

#### WEEE Declaration of Conformity

This WEEE logo means that this product must not be discarded as household waste, and should be delivered to an appropriate collection facility for recycling. Proper disposal and recycling helps protect natural resources, human health and the environment. For more information on disposal and recycling of this product, contact your local municipality, disposal service, or the shop where you bought this product.

#### Manufacturer Declarations
