I am writing to inform you and gain confirmation that the booster meets all criteria stated in section 22.383 for related booster and in building operation. See Below

§ 22.383 In-building radiation systems.

Licensees may install and operate in building radiation systems without applying for authorization or notifying the FCC, provided that the locations of the in-building radiation systems are within the protected service area of the licensee's authorized transmitter(s) on the same channel or channel block.

**Please respond to this e-mail that yes you have read the above statement and that you understand and comply with it. Thank you.**
