

A blue, rectangular electronic device is shown against a white background. The device has a black rectangular screen in the center. Above the screen, there is a small, light-colored rectangular component. At the top of the device, a thin black wire extends upwards. A black label with white text is positioned at the top center of the device. The device has several circular holes: two on the left side and two on the right side. The overall appearance is that of a small, portable electronic component, possibly a sensor or a data logger.
